Messrs. Jakobsen & Hansen,  
86 West Stewart St.,  
Seattle, Washington.

Gentlemen:

Your report of operations at Forrester Island in the season of 1917 has been received. Your promptness in sending in this report is very much appreciated. It is noted, however, that you state 100 white fishermen were employed but do not give the wages paid. It is necessary to report the amount of wages paid to them, or if fish were bought outright, the amount paid for fish should be reported. Kindly give us this information at your early convenience.

Very truly yours,

H. M. Smith.

Commissioner.
